

COVID-19 Update March 23, 2020

Following Governor Baker's Stay at Home Advisory for 'non-essential' businesses:

We want to assure you that Tri-Valley, continues to provide 'essential' services to seniors and younger disabled individuals. We are delivering Meals on Wheels, providing Care Management, In-home Services, Protective Services, and our Information & Resource team is fielding calls during this pandemic.

While our office doors are currently closed to visitors for the safety of our employees, we are happy to give assistance over the phone at 508-949-6640.

This is a fluid situation and information may change quickly so we are continuing to monitor what is happening and making contingency plans for service continuity.
